Contents/Sommaire

FEBRUARY/FÉVRIER

ARTICLES

François G. Tacail, Barry Evans, and Alan Babb Case study of a labyrinth weir spillway	1
Murray C. Temple Connectors for double angles — interconnectors or battens	8
J. Mirza, S. Turenne, and J. Masounave Influence of structural parameters on abrasion-erosion resistance of various repairing mortars	12
B. W. Langan, R. C. Joshi, and M. A. Ward Strength and durability of concretes containing 50% Portland cement replacement by fly ash and other materials	19
B. G. Hutchinson and J. J. L. Mallett Line haul transport cost and pavement damage characteristics of some Ontario trucks	28
Philip Marsh Modelling water temperature beneath river ice covers	36
A. Clayton and R. Plett Truck weights as a function of regulatory limits	45
Dale F. Lesik and D. J. Laurie Kennedy Ultimate strength of fillet welded connections loaded in plane	55
C. C. Peddie and D. S. Mavinic A pilot-scale evaluation of aerobic—anoxic sludge digestion	68
John Morrall and Wayne Thompson Planning and design of passing lanes for the Trans-Canada Highway in Yoho National Park	79
M. S. Cheung, Wenchang Li, and L. G. Jaeger Improved finite strip method for nonlinear analysis of long-span cable-stayed bridges	87
S. White, G. Heiman, G. Huber, R. Besant, and A. Bergan Initial cooling of pavements and the development of pavement cooling charts	94
T. Rezansoff and D. Stott Durability of concrete containing chloride-based accelerating admixtures	102
T. W. Lively, C. D. Gowe, and H. R. Woodhead Construction of the Iona Outfall submarine section	113

BOOK REVIEW / CRITIQUE DE LIVRE

Christian Guillaud Constructions hydrauliques	119
Editorial policy / Orientation de la revue	iii
Instructions to authors	v
Recommendations aux auteurs	vi

APRIL/AVRIL

ARTICLES

C. Albert and J. L. Dawe Buckling of continuous steel girders with flange restraint	121
Brahim Benmokrane Étude par éléments finis du comportement à l'arrachement des ancrages injectés dans le roc	129
J. William Kamphuis Improving shore protection design	142
Jean-Pierre Troude et Jean-Baptiste Sérodes Caractéristiques hydrodynamiques d'un estran à forte sédimentation	148
Sohail A. Mitha and M. F. N. Mohsen Scale effect on dispersion in chlorine contact chambers	156
Erol Karacabeyli and Henley Fraser Short-term strength of glulam rivet connections made with spruce and Douglas-fir glulam and Douglas-fir solid timber	166
S. Beltaos Fracture and breakup of river ice cover	173
Frank R. Wilson, Sundar Damodaran, and J. David Innes Disaggregate mode choice models for intercity passenger travel in Canada	184
F. R. Wilson and Ahmed E. T. Abl El Megeed Stability of province/state wide transport planning model	192
Michel Bruneau Preliminary report of structural damage from the Loma Prieta (San Francisco) earthquake of 1989 and pertinence to Canadian structural engineering practice	198
S. T. Ariaratnam and K. C. K. Leung Parametric effect of vertical ground acceleration on the earthquake response of elastic structures	209
C. Marche, G. Lessard, S. Lemaire, et B. Bouchard Rupture de barrage et cartographie des inondations, une analyse assistée par ordinateur	218
Borg Madsen Length effects in 38 mm spruce—pine—fir dimension lumber	226
Borg Madsen Size effects in defect-free Douglas fir	238
David W. Machina and Jatinder K. Bewtra A review of pilot-scale studies of bottom and surface velocities within air-agitated circular and rectangular vessels	243
Kevin R. Hall Numerical solutions to wave interaction with rubblemound breakwaters	252

NOTES

- Sami M. Fereig and Kenneth N. Smith** Preliminary design of standard prestressed bridges using box girders or hollow slabs 262
- M. A. Ward and B. W. Langan** Effect of concrete specifications and inspection practices on freeze-thaw resistance: a field study 271

JUNE/JUIN

ARTICLES

- G. M. L. Gladwell** Follower forces: Leipholz's early researches in elastic stability 277
- G. M. L. Gladwell** Follower forces: Leipholz's researches into generalized variational principles 287
- Leslie G. Jaeger and Baidar Bakht** Semicontinuum analysis of shear-weak grillages 294
- Michael Isaacson, Thomas Mathai, and Carol Mihelcic** Hydrodynamic coefficients of a vertical circular cylinder 302
- Fariborz Barzegar and William C. Schnobrich** Post-cracking analysis of reinforced concrete panels including tension stiffening 311
- A. P. S. Selvadurai and R. K. N. D. Rajapakse** Axial stiffness of anchoring rods embedded in elastic media 321
- Michael Isaacson and Kevin McTaggart** Influence of hydrodynamic effects on iceberg collisions 329
- Denis Mitchell, René Tinawi, and Tim Law** Damage caused by the November 25, 1988, Saguenay earthquake 338
- René Tinawi, Denis Mitchell, et Tim Law** Les dommages dus au tremblement de terre du Saguenay du 25 novembre 1988 366
- N. El-Jabi et S. Sarraf** Dépistage des embâcles de glace par analyse hydrométrique 395
- P. Vervoort** Lakehead terminal elevators: aspects of their engineering history 404
- A. Ghobarah and H. M. Ali** Seismic design of base-isolated highway bridges utilizing lead-rubber bearings 413
- M. Pildysh, R. J. Slopek, J. O. H. Nunn, and R. A. Keys** Bearsapaw Development: design and construction of a side-channel overflow spillway 423
- A. W. Page and N. G. Shrive** Concentrated loads on hollow clay masonry 431
- D. Polyzois, P. Charnvarnichborikarn, S. Rizkalla, and C. K. Wong** Effect of temperature and galvanization on the compressive strength of cold-formed angles 440
- R. A. Kostaschuk and L. A. Atwood** River discharge and tidal controls on salt-wedge position and implications for channel shoaling: Fraser River, British Columbia 452
- John B. Kennedy, Saddallah Chami, and Nabil F. Grace** Dynamic and fatigue responses of prestressed concrete girders with openings 460
- M. McIntyre and A. Scanlon** Interpretation and application of core test data in strength evaluation of existing concrete bridge structures 471
- M. Saeed Mirza, O. Ferdjani, A. Hadj-Arab, K. Joucdar, A. Khaled, and A. G. Razaqpur** An experimental study of static and dynamic responses of prestressed concrete box girder bridges 481

NOTE

- D. F. E. Stolle** Effect of mechanical model on back-calculated pavement modulus 494

DISCUSSION

- D. J. Oehlers** Behaviour of headed studs in composite beams: push-out tests: Discussion 497

BOOK REVIEWS / CRITIQUES DE LIVRES

- S. F. Stiemer** Structural steel design 500
- Peter S. Dozzi** Modern construction management 501

Foreword / Avant-propos

AUGUST/AOÛT

ARTICLES

- M. G. Skafel and C. T. Bishop** Wave forces on a pipeline in a trench 503
- R. E. Baddour** Computer simulation of ice control with thermal-bubble plumes — line source configuration 509
- Satish C. Sharma, George Stamatinos, and John Wyatt** Evaluation of IRD-WIM-5000 — a Canadian weigh-in-motion system 514
- Gilles Chanvillard et Pierre-Claude Aïtcin** Les resurfaçages minces adhérents en béton renforcé de fibres comme méthode de réhabilitation des chaussées de béton 521
- J. E. Tallin, D. E. Pufahl, and S. L. Barbour** Waste management schemes of potash mines in Saskatchewan 528
- P. R. Louchez et J. Druez** Définition d'un site réel répondant aux conditions d'une simulation d'une couche superficielle de l'atmosphère 543
- U. S. Panu** Numerical modeling of pressure-reducing valves in water distribution network systems 547

N. Rajaratnam and C. Katopodis Hydraulics of culvert fishways III: weir baffle culvert fishways	558
T. Stathopoulos and H. D. Luchian Wind pressures on buildings with stepped roofs	569
P. S. McCreath, C. R. Neill, L. F. Sawatsky, and M. C. Mannerstrom River intake works for a hydroelectric plant in Papua New Guinea	578
Huynh Ngoc Phien and Van-Thanh-Van Nguyen Variances and covariances of the maximum entropy estimators for the Pearson type-3 distribution	590
K. C. Ander Chow and W. E. Watt A knowledge-based expert system for flood frequency analysis	597
Nemkumar Banthia A study of some factors affecting the fiber-matrix bond in steel fiber reinforced concrete	610
Amin Ghali and Adel A. Elgabry Moment and shear transfer between columns and concrete slabs	621
Terry D. Prowse Heat and mass balance of an ablating ice jam	629
Paul Fazio A case study in integrated building design	636
A. Filiatrault Static and dynamic analysis of timber shear walls	643
Yean-Jye Lu, John Z. Luh, and Alan K. Yep Using queue distance to supplement traffic signal timing design	652
R. G. Redwood, L. Lefki, and G. Amar Earthquake resistant design of steel moment resisting frames	659

DISCUSSIONS

David Hansen Hydraulics of culvert fishways II: slotted-weir culvert fishways: Discussion	668
N. Rajaratnam, C. Katopodis, and N. McQuitty Hydraulics of culvert fishways II: slotted-weir culvert fishways: Reply	671

BOOK REVIEWS / CRITIQUES DE LIVRES

L. G. Jaeger Dynamics of structures	673
R. A. Dorton Cable stayed bridges	673
S. P. Dozzi Practical buildability	674

OCTOBER/OCTOBRE

ARTICLES

Harold S. Belore, Brian C. Burrell, and Spyros Beltaos Ice jam mitigation	675
F. J. Vecchio and K. Tang Membrane action in reinforced concrete slabs	686
F. J. Vecchio and S. Balopoulou On the nonlinear behaviour of reinforced concrete frames	698
M. Saeed Mirza and Albert K. W. Lim Behaviour and design of coupled slab-structural wall systems	705
John W. Markowsky, David L. Woytowich, and Ian C. Goulter Development of a portable direct filtration water treatment plant in northern Manitoba	724
Mario Fafard, André Picard et Denis Beaulieu Analyse des structures avec joints à rigidité partielle : une approche unifiée	730
Michel Leclerc, Jean-François Bellemare, et Serge Trussard Simulation hydrodynamique de l'estuaire supérieur du fleuve Saint-Laurent (Canada) avec un modèle aux éléments finis couvrant-découvrant	739
W. Alan Dalglish and Donald A. Taylor The strength and testing of window glass	752
B. G. Krishnappan Modelling of settling and flocculation of fine sediments in still water	763
D. E. Allen Floor vibrations from aerobics	771
Donald H. Burn and Dennis E. Lemke Hydraulic model analysis for an orifice spillway	780
J. L. Dawe and G. Y. Grondin W-shape beam to RHS column connections	788
J. H. Rainer, A. M. Jablonski, K. T. Law, and D. E. Allen The San Francisco area earthquake of 1989 and implications for the Greater Vancouver area	798
Denis Mitchell, René Tinawi, and Richard G. Redwood Damage to buildings due to the 1989 Loma Prieta earthquake — a Canadian code perspective	813
H. Marzouk and S. Mohan Strengthening of wide-flange columns under load	835
A. P. S. Selvadurai, M. C. Au, and W. A. Phang Modelling of low-temperature behaviour of cracks in asphalt pavement structures	844

NOTES

Leslie G. Jaeger and Baidar Bakht Effect of butt joints on the flexural stiffness of laminated timber bridges	859
Leslie G. Jaeger and Baidar Bakht Rationalization of simplified methods of analyzing cantilever slabs	865
H. Marzouk Shearing off the lower section of an existing column	868
